Use Approval (Short Term Use of Water)

Tracking Number: 100410300

Applicant Information

If approved, will the authorization be issued to an Individual or Company/Organization?	Company/Organization
What is your relationship to the Company/Organization?	Employee

APPLICANT COMPANY/ORGANIZATION CONTACT INFORMATION

Applicant is an Individual or an Organization to whom this authorization Permit / Tenure / Licence will be issued, if approved.

Name:	British Columbia Hydro and Power Authority
Doing Business As:	
Phone:	604-328-8436
Fax:	
Email:	
BC Incorporation Number:	
Extra Provincial Inc. No:	
Society Number:	
GST Registration Number:	
Contact Name:	Meaghan Candy
Mailing Address:	333 Dunsmuir Street Vancouver BC V8B 5R3

ELIGIBILITY

Please answer the following questions related to whether you qualify to apply for a short term use of water.

Question	Answer	Warning
Will the water be diverted and used to support oil and gas activity that is being authorized by the Oil and Gas Commission?	No	
Do you want to divert and use the water for more than two years?	No	
Is your application for a funded high-speed internet Connectivity Project?	No	
Is this application in relation to increasing the supply of housing units within British Columbia? **A Housing related project, for the purpose of this application, must be for a specific development and the development must increase the number of housing units on the land/property.**	No	

TECHNICAL INFORMATION

GOVERNMENT AND FIRST NATION FEE EXEMPTION REQUEST

Do you belong to, are you applying on behalf of, or are you: No

- A provincial government ministry
- The Government of Canada

- A First Nation for water use on reserve land
- A person applying to use water on Treaty Lands
- A Nisga'a citizen
- An entity applying to use water from the Nisga'a Water Reservation?

We require some more technical information from you. Please add sites where you need to divert and use water.

Term Start Date:	Mar 3, 2023
Term End Date:	Mar 2, 2025

SITES WHERE YOU WANT TO DIVERT THE WATER

Please provide us with information about all sites where you want to take the water from, how much water you will need and what the water will be used for.

SITES

Location ID:	Upstream Water Withdrawal
Name of the Stream:	Peace River
Source of Water:	Surface Water
Source Flows Into:	Great Slave Lake

LAND DETAILS

DRAWINGS

A Drawing to Scale is required that meets the Application Drawing Standards. Choose one of the options below to submit the required map/drawing.

Additionally, it is recommended that you provide a topographical map showing the general location of the property where the water is proposed to be used and the works constructed in relation to nearby communities, highways, railways and other water sources.

(this additional map will not be necessary if your Drawing to Scale is provided using the Geomark Service or a spatial file such as .KML or .KMZ)

PRIVACY DECLARATION

☑ Check here to indicate that you have read and agree to the privacy declaration stated above.

REFERRAL INFORMATION

Some applications may also be passed on to other agencies, ministries or other affected parties for referral or consultation purposes. A referral or notification is necessary when the approval of your application might affect someone else's rights or resources or those of the citizens of BC. An example of someone who could receive your application for referral purposes is a habitat officer who looks after the fish and wildlife in the area of your application. This does not apply to all applications and is done only when required.

Please enter contact information below for the person who would best answer questions about your application that may arise from anyone who received a referral or notification.

☑ **I hereby consent to the disclosure of the information contained in this application to other agencies, government ministries or other affected parties for referral or First Nation consultation purposes.**

IMPORTANT NOTICES

Please review the "Important Notices" below and then check the declaration at the bottom confirming that everything in this application is complete and accurate.

- I understand that the submission of this Short Term Use of Water Approval does not provide authority under the Water Sustainability Act to divert, use or store water from a stream or to construct works. I also understand that my application must first be investigated and a decision made on the application as to whether a approval may be granted and, as part of that review, additional information may be requested of me.
- The application may be subject to further requirements under the federal Fisheries Act. Please refer to Fisheries and Oceans Canada Projects Near Water webpage (http://www.dfo-mpo.gc.ca/pnw-ppe/index-eng.html) for information on how to ensure your project complies with the Fisheries Act.
- Once you click 'Next' the application will be locked down and you will NOT be able to edit it any more.

DECLARATION

☑ By submitting this application form, I, declare that the information contained on this form is complete and accurate.

Site C Clean Energy Project
Water Sustainability Act S10 Short Term Use of Water (Renewal)
Hudson's Hope Berm
Description of Activities and Works

INTRODUCTION

Hudson's Hope is a community on Highway 29 west of Fort St John. When reservoir filling begins, the Site C reservoir will widen the Peace River by two-to-three times. As a result, BC Hydro is building a 2.6-kilometer-long shoreline protection berm along the shore of Hudson's Hope. The berm begins on the shoreline of the Peace River on the western end of the town and extends downstream past the municipal sewage treatment facility.

Activities at Hudson's Hope Berm require water use for dust control and compaction and vehicle washing. On March 4, 2021, the Ministry of Forests, Lands, Natural Resource Operations and Rural Development issued Water Sustainability Act S10 Short Term Use of Water Approval 9000588, expiring March 3, 2023, to BC Hydro permitting water withdrawal for works related to Hudson's Hope Berm.

BC Hydro is now submitting this renewal application for continued use of water to support remaining activities at Hudson's Hope, such as reclamation and access construction. This document provides information on existing conditions, proposed activities and works, schedule of work, access and equipment and the future use of the area. This application should be read in conjunction with the Site C Construction Environmental Management Plan (CEMP).[1]

EXISTING CONDITIONS

Existing baseline conditions, potential effects of the Project and proposed mitigation measures on Fish and Fish Habitat, Vegetation and Ecological Communities, Wildlife Resources and Heritage Resources, are described in the Site C Project's EIS Volume 2 Sections 12, 13 and 14, and Volume 4 Section 32, respectively.

DESCRIPTION OF WORKS

This application requests authorization to withdraw water from one point of diversion (POD) zone on the Peace River at the Hudson's Hope Berm as shown on Drawing No. 1016-N11-00735.

For the period of February 15th to November 15th, the annual volume of water requested under this permit with be 61,650m³

- 58,225 m³ for Well Drill/Transport Management (dust control and compaction)
- 3,425 m³ for Vehicle and Equipment (washing)

The total volume of water requested over a two year period is 123,300m³

The maximum rate of withdrawal will be 0.01 m3/s. The volumes above are based on the assumption that water will be required for a 24 hour workday, 7 days per week, between February 15th and November 15th.

---

[1] Site C Clean Energy Project Construction Environmental Management Plan. Revision 11: October 11, 2022. Available from https://www.sitecproject.com/sites/default/files/construction-environmental-management-plan-CEMP-rev-11_0.pdf

All information set out in the Description of Activities and Works is based on construction planning at the time of application. Activities may be somewhat different depending on the contractors' preferences for equipment, sequencing of activities and construction means and methods. All activities will be carried out in accordance with the Site C Construction Environmental Management Plan.

LEGAL LAND DESCRIPTION

Table 1 below describes the location of the point of diversion zone, as shown in Drawing No. 1016-N11-00735.

Table 1. Location of water withdrawal sites

Point of Diversion	Coordinates	Legal Land Description
Hudson's Hope Berm Zone	Downstream water withdrawal limit 56.0388849, -121.888846 Upstream water withdrawal limit 56.022036, -121.919836	See Appendix A

SCHEDULE OF WORK

Water will be used between February 15th and November 15th. Hudson's Hope Berm construction has commenced. Additional supporting activities such as the construction of DA Thomas Rd will commence in Spring 2023.

ACCESS

The contractor will access the withdrawal sites through already established access roads.

SITE RESTORATION AND STABILIZATION

Ground disturbance at the water withdrawal site will be negligible.

ENVIRONMENTAL MANAGEMENT AND MONITORING

Construction will comply with the Site C Construction Environmental Management Plan[2] and the contractors Environmental Protection Plan (EPP). The EPP will describe measures to protect water quality, avoid impacts on fish and fish habitat, and comply with existing environmental Best Practices.

Appendix A – Legal land descriptions

Legal land description of where water is to be withdrawn and used - Hudson's Hope Berm Zone

- North East 1/4 Section 19 Township 81 Range 25 West of the 6th Meridian Peace River District Except Block A Block B Block C
