Dear Sir or Madam:

Re: Change Approval Application – 900472 (Pine Moberly – Transmission Line)

Approval for the above has been granted and a Section 11 Change Approval document verifying this is attached.

The Approval holder is required to adhere to all other applicable Provincial and Federal regulations.

An environmental monitor shall be present during instream work.

Section 105 of the *Water Sustainability Act* gives the recipient of this notice the right to appeal my decision. You may file an appeal within 30 days of the date indicated on this letter. Information on filing an appeal can be found on the Environmental Appeal Board WEB site at <http://www.eab.gov.bc.ca/>.

If you have any questions or concerns regarding the document issued, please contact Rebecca Collier in the Prince George office at (778) 693-2775.

Yours truly,

Dave Francis
Water Manager

- 2) The changes to be made in and about the stream are:
 - The infilling and partial infilling of 10.3 ha of wetland within the Statutory Right of Way.
- 3) All work will be as described in the Section 11 Application and the document titled "Site C Clean Energy Project Water Sustainability Act s.11 Approval 5L005 East Transmission Line: Conductor Stringing Description of Activities and Works" dated June 25, 2019.
- 4) The works authorized shall be completed by March 31, 2020.
- 5) Any significant departures from the approved plans and specifications as outlined in clause (3) will be submitted to the Water Manager for approval at least ten (10) working days prior to any changes being made in the field.
- 6) The following documents/plans shall be followed during the commencement of the work outlined in clause (2) above;
 - Construction Environmental Management Plan (CEMP),
 - Wetland Mitigation and Compensation Plan (WMCP)
- 7) All work shall be done in accordance with the "Standards and Best Practices for Instream Works" (WLAP 2004) and as stated in the documents within clause (3).
- 8) All instream works or work occurring in environmentally sensitive areas will be constructed under on-site supervision of an appropriately qualified Environmental Monitor (EM).
- 9) All instream work shall be undertaken during the appropriate instream work window unless otherwise authorized by appropriate Provincial or Federal agencies.

- 10) Equipment operating near the stream shall be free of external grease, oil or fluid leaks and an emergency spill response kit shall be kept on-site. Refueling of machinery shall be conducted to ensure that deleterious substances shall not enter the watercourse.
- 11) Care shall be exercised during all phases of construction to minimize the escape of sediment laden water from the watercourse.
- 12) All excavated material shall be placed in a stable area above the high water mark of the stream, in a location which ensures that sediment or debris does not enter the watercourse, and protected from erosion by planting grass and/or vegetation.
- 13) This document does not supersede the requirements of the *Water Sustainability Act* and regulations, *Federal Fisheries Act* or any other related legislation. The proponent is obligated to comply with all federal, provincial and municipal legislation.
- 14) This Approval does not authorize entry onto private land. It is the responsibility of the holder of this Approval to obtain appropriate landowner permissions/agreements prior to the works occurring.
- 15) The holder of this Approval shall take reasonable care to avoid damaging any land, works, trees or other property, and shall make full compensation to the owners for any damage or loss resulting from the exercise of the rights granted with this Approval.
- 16) The holder of this approval shall notify the Water Manager under the *Water Sustainability Act* when the changes have been completed.
- 17) The changes shall be completed to the satisfaction of the Water Manager under the *Water Sustainability Act*.
- 18) This Approval, or a copy of it, shall be kept or posted on the work site so that it may be shown to a Ministry official upon request.

Dave Francis
Water Manager
