1.0 Background

The Site C Clean Energy Project is a hydroelectric dam and generating station under construction in northeast B.C. Construction started in July 2015 and the project will be in service in 2024. Site C will help meet future electricity needs by providing 1,100 megawatts of dependable capacity, and producing about 5,100 gigawatt hours of energy each year — enough to power the equivalent of 450,000 homes in B.C. per year. Once built, the project will be a source of clean, reliable and cost-effective electricity in B.C. for more than 100 years.

The key components of the project are:

- Access roads and a temporary construction bridge across the river, at the dam site.
- Worker accommodation at the dam site.
- Upgrades to 240, 269, 271 and Old Fort roads.
- The realignment of six segments of Highway 29.
- Two temporary cofferdams across the river to allow for construction of the earthfill dam.
- Two new 500 kilovolt transmission lines connecting Site C to the Peace Canyon Substation, within an existing right-of-way.
- Shoreline protection at Hudson’s Hope, including upgrades to DA Thomas Road.
- An 800-metre roller-compacted-concrete buttress to enhance seismic protection.
- An earthfill dam, approximately 1,050 metres long and 60 metres high above the riverbed.
- A generating station with six 183 MW generating units.
- An 83-kilometre-long reservoir that will be, on average, two-to-three times the width of the current river.

1.1 Environmental Assessment Certification Conditions

The [Site C Business Participation Plan](#) has been developed in accordance with Conditions 51, 54 and 72 of the Environmental Assessment Certificate (EAC), and supports local and regional business participation in the project. Table 1 describes where in the Business Participation Plan each aspect of the EAC conditions is addressed.

This Business Participation Plan Annual Report provides a review of the activities undertaken in the reporting period, which is July 1, 2019 to June 30, 2020.

Table 1. EAC Conditions addressed in the Business Participation Plan

EAC Condition Number	Condition	Plan Reference/Status
51	The EAC Holder must develop and implement a Business Participation Plan.	The Business Participation Plan was completed June 5, 2015.

3.0 Reporting

As per Section 7.0 of the Site C Project Business Participation Plan, BC Hydro will publicly report on the following business participation activities on an annual basis:

Reporting Requirement	Year Four Update (July 2019 to June 2020)
Number of registrants in the Site C Business Directory	As of June 30, 2020, there were 1,776 companies registered with the Site C Business Directory.
Number of attendees at business-to-business networking sessions and business information sessions	<p>BC Hydro encouraged Site C’s contractors to liaise with the business community directly. In order to facilitate business-to-business relationships, contact information has been posted online for our contractors. Further, the Site C Business Directory is regularly shared with all on-site contractors and BC Hydro’s procurement team.</p> <p>See Appendix A for more information about business participation activities.</p>
Visits to the Site C project website – Business Opportunities pages	<p>Information about the status of procurements, the procurement approach and procurement forecast is publicly available on the Business Opportunities section of the project website.</p> <p>The Procurement Update page on the project website had 4,259 visits and 5,753 views from July 1, 2019 to June 30, 2020. This averaged 479 views a month.</p> <p>Appendix B provides a monthly report of visits to the three key procurement pages.</p>
Number of respondents to Requests for Supplier Qualifications (RFSQ)	<p>The number of respondents to a RFSQ is indicative of the level of market interest in a procurement opportunity.</p> <p>An RFSQ was posted for the Site C Supplemental Access, Clearing and Related Work on July 31, 2019. The RFSQ closed on August 26, 2019 with 15 responses received.</p>
Number of local, regional and Indigenous contractors working on the Site C Project	<p>Each month, the major contractors on the project are required to submit the names and addresses of local and regional businesses that have been hired to perform the work.</p> <p>Appendix C provides a list of nearly 900 northern B.C. businesses that have engaged in project work from the start of construction.</p>

4.0 COVID-19 Communications

During the reporting period, in March 2020, the World Health Organization declared COVID-19 a global pandemic.

BC Hydro had been closely monitoring COVID-19 since January, 2020. On March 16, 2020, a Site C Emergency Operations Centre was established to coordinate project activities, and BC Hydro worked closely with health officials to strictly follow federal and provincial health guidelines to ensure the site remains safe for workers and the wider public.

A [new webpage](#) was developed to provide information on COVID-19 and Site C. Materials shared on the webpage include answers to frequently asked questions, infographics, and regular updates on camp occupancy and isolation statistics.

The screenshot shows the top of the 'Site C Clean Energy Project' website. It features a search bar and navigation links for 'Document Library', 'Maps', 'FAQ', and 'Contact Us'. Below the navigation is a horizontal menu with tabs for 'About the Site C Project', 'Construction Activities', 'Environmental Assessment', 'In the Community', 'Business Opportunities', 'Job Opportunities', and 'News & Information'. The 'News & Information' tab is selected. Below the menu is a large aerial photograph of the construction site. A white box with a blue header 'News and Information' is overlaid on the photo, containing the text: 'The news and information section includes media releases, information sheets, field work notices and project videos about Site C.'

A vertical sidebar menu with a blue background and white text. The items listed from top to bottom are: 'News', 'Site C COVID-19 updates' (highlighted in a darker blue), 'Information Sheets', 'Project Videos', 'Field Work', 'Site C Inquiry', 'Progress Reports to the BCUC', and 'Monthly Employment Statistics'.
