Dear Karen von Muehldorfer | Regulatory Manager:

Re: Change Approval – 9000373 (Septimus Laydown Areas 29 &30)

Approval for the above has been granted, and the approval document is attached for your perusal. Please review and ensure you are familiar with all of the conditions held within this approval.

The Approval holder is required to adhere to all other applicable Provincial and Federal regulations.

Section 105 of the *Water Sustainability Act* gives the recipient of this notice the right to appeal my decision. You may file an appeal within 30 days of the date indicated on this letter. Information on filing an appeal can be found on the Environmental Appeal Board WEB site at <http://www.eab.gov.bc.ca/>.

If you have any questions or concerns regarding the document issued, please contact Robert M Piccini in the Prince George office at (250) 551-3444.

Yours truly,

Dave Francis
Water Manager

Water Sustainability Act

Approval Section 11 (1)

British Columbia Hydro and Power Authority, Suite 600, Four Bentall Centre, 1055 Dunsmuir Street, PO Box 49260, Vancouver, BC V7X 1V5 and their agents are hereby authorized to make changes in and about a stream as follows:

- 1) The areas of the affected streams/wetlands are outlined in “*Table I*” contained within the document entitled, “*Site C Clean Energy Project, Activity Description for the Dam Site Area, Wetlands Encroachment, Laydown Areas 29 & 30*”, prepared by BC Hydro.
- 2) The changes to be made in and about the streams/wetlands are:
 - *Site preparation for Area 29 and 30 which will include clearing, dewatering, grubbing, stripping, grading surface and water management,*
 - *These activities will require or partial infill 32 wetlands along Areas 29 and 30.*
- 3) All works and infilling shall be reviewed and assessed by a Qualified Environmental Professional (QEP), to determine the extent and type of wetlands being encroached and provide input as to the wetland mitigation and compensation plan.
- 4) All works authorized by this approval for the Septimus laydown for Areas 29 and 30 shall be completed by September 30th, 2024.
- 5) Any significant departures from the approved plans and specifications as outlined in clause (2) will be reported to the Water Manager prior to those alterations occurring.
- 6) The following documents/plans shall be followed during the commencement of the work outlined in clause (2) above;
 - Wetland Mitigation and Compensation Plan (WMCP), and,
 - Vegetation and Wildlife Mitigation and Monitoring Plan (VWMMP).
- 7) All instream work shall be undertaken during appropriate instream work windows; unless otherwise authorized by appropriate Provincial or Federal agencies.
- 8) All work shall be done in accordance with the “Standards and Best Practices for Instream Works” (MWLAP 2004).
- 9) Instream activities must be conducted in the dry and the worksite must be isolated from water flowing into adjacent stream channels.
- 10) Care shall be exercised during all phases of construction to minimize the escape of sediment laden water from the watercourse.

- 11) Equipment operating near the stream shall be free of external grease, oil or fluid leaks and an emergency spill response kit shall be kept on-site.
- 12) Refueling of machinery shall be conducted to ensure that deleterious substances shall not enter the watercourse.
- 13) All disturbed areas of the stream channel and its banks must be restored and provided with long-term protection from erosion.
- 14) All excavated material shall be placed in a stable area above the high water mark of the stream and protected from erosion, using appropriate grasses and/or vegetation that do not contain invasive or noxious weeds.
- 15) The holder of this Approval shall take reasonable care to avoid damaging any land, works, trees or other property, and shall make full compensation to the owners for any damage or loss resulting from the exercise of the rights granted with this Approval.
- 16) The holder of this approval shall notify the Water Manager under the *Water Sustainability Act* when the changes have been completed.
- 17) The changes shall be completed to the satisfaction of the Water Manager under the *Water Sustainability Act*.
- 18) British Columbia Hydro and Power Authority (BCH) has committed through the project's Environmental Impact Statement (EIS) and Environmental Assessment Certificate (EAC), multi-year monitoring to maintain and mitigate the potential long-term effects of this project on Fish and Fish Habitat.
- 19) This document does not supersede the requirements of the *Water Sustainability Act* and Regulations, Federal *Fisheries Act* or any other related legislation. The proponent is obligated to comply with all federal or provincial or municipal enactments.
- 20) This Approval, or a copy of it, must be kept or posted on the work site so that it may be shown to a Ministry official upon request.

Dave Francis
Water Manager
