Subject: BC Hydro – Site C – Old Fort Road temporary closure for 2 hours overnight – June 20-21
Date: 2024, June 19 3:31:15 PM

Hello Old Fort Neighbours,

Overnight Thursday/early Friday this week, we will be moving a large piece of equipment along the Old Fort Road and this will require a temporary road closure for about two hours, from about 12 a.m. (midnight) to about 2 a.m. The move will affect traffic on Old Fort Road between the LAR fabrication workshop, near the intersection with MacLean Road, down to Gate B.

This is the fifth of six large pieces of equipment to be moved. A final delivery will be planned for sometime in the next two months and is expected occur overnight to minimize impacts to local traffic.

While the Old Fort Road is closed during these deliveries, Site C Gate A and B will be accessible for emergencies. Local first responder agencies have been alerted to the temporary road closure.

We apologize for any inconvenience that this temporary closure may cause. If you have any questions, please don't hesitate to reach out.

Regards,
Site C Project team
