PROCUREMENT BY MOTI

COMPONENT	2016												2017												2018												2019												2020												2021											
	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec			
Cache Creek/Bear Flat	Complicated bridge structure; Appx. 8 km																																																																							
CRITICAL PATH	Design																																																																							
MoTI Asset	Crown Land Permit Geotech																																																																							
Construction Estimate:	Site Investigations																																																																							
	Property Acq. Dwgs.																																																																							
	Property Acquisition Target																																																																							
	MoTI Clearing Grubbing - Hired Equip																																																																							
	MoTI Stripping of Arch Sites - Hired Equip																																																																							
	BCH Pre-Procurement Approval																																																																							
	MoTI Procurement Grading & Paving																																																																							
	MoTI Grading & Paving Contract Award																																																																							
	MoTI Bridge Procurement																																																																							
	MoTI Bridge Contract Award																																																																							
	Construction																																																																							
Critical Path / Risks:	<ul style="list-style-type: none"> - Property Acquisition - Board Approval to issue Public Tender - Board Approval to award Contract - Milestone - Ready for Diversion - Milestone - Diversion Tunnel 																																																																							
Halfway River	Most complex bridge structure 50m high / 300m long; Appx. 4 km																																																																							
MoTI Asset	Design																																																																							
Construction Estimate:	Crown Land Permit Geotech																																																																							
	Site Investigations																																																																							
	Heritage Investigation																																																																							
	BCH Pre-Procurement Approval																																																																							
	MoTI Procurement																																																																							
	Contract Award																																																																							
	Construction																																																																							
Lynx Creek	Bridge 160m long / 30m high; Complex road construction, built out into the river at the east end; appx. 9 km																																																																							
MoTI Asset	Design																																																																							
Construction Estimate:	Crown Land Permit Geotech																																																																							
	Site Investigations																																																																							
	Heritage Investigation																																																																							
	Property Acq. Dwgs.																																																																							
	Property Acquisition																																																																							
	BCH Pre-Procurement Approval																																																																							
	MoTI Procurement																																																																							
	Contract Award																																																																							
	Construction																																																																							
Farrell Creek East	No Bridge; Appx. 7 km																																																																							
MoTI Asset	Design																																																																							
Construction Estimate:	Crown Land Permit Geotech																																																																							
	Site Investigations																																																																							
	Heritage Investigation																																																																							
	Property Acq. Dwgs.																																																																							
	Property Acquisition																																																																							
	Public Procurement - Draft Tender																																																																							
	Public Procurement - post & close Tender																																																																							
	Evaluations & Contract Award																																																																							
	Construction																																																																							
	option to complete construction summer 2022																																																																							
Farrell Creek	Bridge 160m long / 30m high; Appx. 3 km																																																																							
MoTI Asset	Design																																																																							
Construction Estimate:	Crown Land Permit Geotech																																																																							
	Site Investigations																																																																							
	Heritage Investigation																																																																							
	Property Acq. Dwgs.																																																																							
	Property Acquisition																																																																							
	Public Procurement - Draft Tender																																																																							
	Public Procurement - post & close Tender																																																																							
	Evaluations & Contract Award																																																																							
	Construction																																																																							
	option to complete construction summer 2022																																																																							
Dry Creek	Large culvert (currently no bridge); may move temporary bridge to Dry Creek; Appx. 3 km																																																																							
MoTI Asset	Design																																																																							
Construction Estimate:	Crown Land Permit Geotech																																																																							
	Site Investigations																																																																							
	Heritage Investigation																																																																							
	Public Procurement - Draft Tender																																																																							
	Public Procurement - post & close Tender																																																																							
	Evaluations & Contract Award																																																																							
	Construction																																																																							
	option to complete construction summer 2022
